Figure It Out Yourself.

I have just paid a 50 per cent dividend on a fire insurance policy which was written at the exact stock rates of 90 cents per \$100 for five year term. Here are the figures. \$1,500 insurance for five years costs exactly \$6.75, or \$1.35 per year, a trifle over 11 cents per month and less than 3 cents per week, to be exact a trifle over 2 1/2 cents per week. Can you afford to be without insurance for anything like these figures, and don't you want to save 50 per cent on some of your policies? This policy was written in the Providence Mutual of Rhode Island, a company that is in their 108th year of actual business and is the oldest company in the New England States. I have advertised for the past five weeks to give anyone a \$10.00 bill that would produce one single policy that was ever written in this town that could match this policy for cheapness. This offer is still open.

A Might-Have-Been.

Last Saturday afternoon as Mrs. Charles E. Marshall of 20 Pleasant street with her 10 months old baby in her arms was crossing the street directly in front of her house something struck her on the left shoulder with such force that she was turned squarely around. The something proved to be a shot from a 22 calibre rifle but so nearly spent that after burning a hole in her coat it fell to the ground. She is suffering from a lame shoulder but feels she is very fortunate to escape so easily. The shot came from the direction of Mr. Pleasant cemetery and was probably fired by some boys who were amusing themselves with a rifle.

U. C. T. Election.

The annual election and public installation of officers of the United Commercial Travelers was held in Pythian Hall, Saturday evening. Two members were initiated, and lunch was served by the ladies. Following the installation, dancing was enjoyed. The installing officer was Past Councilor F. C. Gilson. Following are the officers:

Past Councilor, R. M. Kamm.
Sec., and Treas., Ralph B. Hooker.
Conductor, Howard B. Blossom.
Page, Charles W. McLaughlin.
Sentinel, Robert E. French.
Executive Committee, B. H. Alden, D. D. Bean, H. H. Carr, H. E. Wilson.

Coming Again.

And why should't he? For probably no man on the lecture platform has ever succeeded in portraying the inner thoughts and feelings of our lives better than Leland Powers. His impersonations of character in his rendering of the many sided life of David Copperfield, without accessories of scenery and cast, are something wonderful; and by his careful selection of sentiments and situations to be represented, he leaves behind valuable moral impressions that can never be forgotten. His productions appeal at once to the imagination, a stimulating and satisfying it as no mere spectacle can ever do.

This is not only the closing number of the Y. M. C. A. Lecture Course, but like wise the best, from both an entertaining and a literary standpoint, and it is hoped that on next Monday evening Music Hall may be filled.

Ministers' Meeting.

The bi-monthly meeting of Caledonia Association of Congregational ministers was held at the North church yesterday forenoon. A review of Dr. Charles Cuthbert Hall's book, "Universal Elements of the Christian Religion," was given by Rev. E. G. French of Lyndonville; a paper on "The Value of a high Appreciation of the Church" was given by Rev. O. E. Hardy of Burke; and a discussion of Old Testament quotations in the book of Hebrews was led by Rev. J. K. Kilbourn of Barnet.

The Boston Curb and Eureka Mines.

Very few of the brokers and investing public who are purchasing heavily Eureka Mines on the Boston Curb realize the actual value of this security. This new camp is located in the Jarilla Mountains, New Mexico. We are the only brokers, to our knowledge, who have visited this new camp.

We have spent thousands of dollars in connection with our examination. When we visited the camp seven months ago, we found three producing mines. Last month when we again visited the camp, there were fifteen producing mines; a million dollar smelter was running to its fullest capacity; over 800 mining claims staked out.

Gold, silver, copper and turquoise everywhere, values running from \$400 to \$16,000 per carload. This camp is directly on the Rock Island R. R., and with its smelter on the ground, brings the cost of production to its lowest possible price.

Eureka Mines Company is a consolidation of valuable mining properties in this camp.

The Eureka Mines preferred is selling on the Boston Curb from \$1 to \$1 1/2; Eureka Mines common stock is selling from 15c to 18c. For permanent investment, buy 8 per cent. preferred stock. For speculation and quick profit taking, buy common stock at any price under 30c. Any broker can buy this stock for you. Watch the papers for quotations.

Our "35 Congress Street Curb News" this week gives a complete report of this property. Send for it.
